CONSTRUCTIONS

ABOUT US

Prince Invest is a company that applies for bids and tenders in the African Continent and executes them in partnership with Turkish governmental organizations. We've got offices in many countries such as Senegal, Ukraine, Nigeria, Zambia, Congo, and Egypt, and are expanding our business to new countries all over the world in order to serve our clients better.

We are a company with an extensive network and professional expertise in trade services. We offer our clients quality goods from Turkey, Latin America or anywhere else they need it – all at competitive prices!

MACHINES

DRILLERS are skillful operators who bore holes in the ground for various purposes, such as mining or construction.

01

EXCAVATORS are heavy machinery used to dig, scoop, and move large amounts of earth and debris at construction sites.

02

CRANES are essential equipment for lifting and moving heavy loads, making them indispensable in construction and logistics industries.

03

LOADERS are powerful machines used to load materials onto trucks or conveyors efficiently, facilitating material handling tasks.

04

PRINCE INVEST

Our Mission

We are here to make your export/import process as easy and transparent as possible! Our team is ready for anything – whether you need help finding the right product, negotiating discounts with vendors abroad or just wanting more information about how things work in general. We'll be there every step of the way so that when it comes time fly out those doors (or onto planes), everything will run smoothly without a hitch thanks to us.

Our Vision

We are committed to increasing the number of Turkish exports through a variety of means. We believe that by providing quality, reliability, and recognition in world markets will be able to increase business success rates for our clients.
